

MPulse Fundamentals

MPulse Means Affordable Training™

MPulse Fundamentals training course provides live, interactive online sessions designed to help users get quickly up to speed.

This one-day course with optional workshop provides basic instruction on skills necessary to successfully navigate, configure, and use your MPulse software.

This course is essential for new users within your organization and brand-new customers to MPulse, as well as a great refresher for existing users. Many companies use it to support their train-the-trainer programs. Your “MPulse champion” can brush up their skills in this course, and they’ll be prepared to help the rest of your team.

Key Benefits

- Live virtual classroom environment
- Focused instruction away from day-to-day operational demands
- Highly interactive
- Real-world scenario discussions
- Small class size
- No travel costs
- Great value

Sessions cover all MPulse editions. Our virtual sessions are easy to access from anywhere in the world.

Target Audience

Maintenance staff responsible for configuring and managing CMMS and/or daily work order administration.

Description

MPulse Fundamentals focuses on the core functionality of MPulse, its application to data, and maintenance management concepts. This one-day course includes six, one-hour sessions, plus attendees can ask direct questions at the end of the day. Every session is followed by a 5-10 minute break, and each day includes a one-hour lunch break. Attendees will receive a compilation of the content relevant to each session and a recording.

Limited to one person per seat, with additional seats available for purchase.

Cancellation and Rescheduling Policies
