

Reset Program

MPulse Means Continuous Collaboration™

Things Change. MPulse Helps You Adapt and Re-focus.

Sometimes maintenance management feels like a moving target. It's easy to get redirected away from the CMMS implementation that was once your priority. You had big plans for using MPulse CMMS software to improve efficiencies, reduce costs, and get better visibility of maintenance histories. But your day-to-day responsibilities can distract you from realizing your vision.

It's time to push the **Reset** button on your MPulse implementation.

Who is MPulse Reset For?

If you're an existing MPulse customer who's already worked through any of our other MPulse Software training and implementation services, MPulse Reset is for you.

MPulse Reset can also help you reconfigure your workflows and benchmarks, and then determine where adjustments to your software can help. MPulse Reset makes the most of your time and budget by delivering our best implementation and consulting services remotely through the latest virtual meeting and collaboration technology.

The #1 reason CMMS initiatives fail is incomplete implementation.

Comprehensive Service, Minimal Disruption

The MPulse Reset program covers all the phases of a successful process review. You'll be assigned an MPulse Senior Trainer/Implementation Engineer who'll spend up to 8 focused hours guiding you through our time-tested program improvement review.

Planning Meeting

- Perform a revised needs analysis
- Establish goals
- Refine work processes
- Determine adjustments in reports and the database layout
- Develop a training plan and curriculum

Upon completion of your planning meeting, we'll provide the following assistance, as needed, based on what we learned.

MPulse Data Review

- Review current MPulse data
- Clean up existing data as needed
- Determine new data to collect
- Import new data into the MPulse database

Online Instruction

- Prepare for implementation of new workflows and KPIs
- Simulate real scenarios using your own data
- Ensure your key players are up and running

Dedicated Follow-up

- To help ensure your goals are achieved, we offer follow-up consulting and additional action plans as needed

With MPulse Reset, you can rest assured you're following a comprehensive process to drive results.

Reset Program

MPulse Means Continuous Collaboration™

A Goal-Oriented Approach

Upon completion of MPulse Reset, you'll have

- A clear implementation adjustment plan based on updated benchmarks and key performance indicators (KPI)
- A timeline with goal-based milestones and efficiency goals
- Revisions to your MPulse database to support your plan
- Redesigned workflows to meet your objectives
- Instruction on any revised workflows or MPulse features
- A plan for additional training as required

How Can MPulse Reset Help Me?

MPulse Reset delivers our best implementation and consulting services via the latest online meeting software, making the most of your time and budget.
